

Open House - Saturday, October 12, 2024

This year's FPW campaign, **"Smoke alarms: Make them work for you!"** Smoke alarms serve as the first line of defense in a home fire, but they need to be working in order to protect people.

- Install smoke alarms in every bedroom, outside each separate sleeping area (like a hallway), and on each level (including the basement of a home).
- Make sure smoke alarms meet the needs of all family members, including those with sensory or physical disabilities.
- Test smoke alarms at least once a month by pushing the test button.
- Replace all smoke alarms when they are 10 years old.
