

November 14, 2024

Dear Resident,

The City of Stillwater conducts a street improvement project every year, a tradition that has been ongoing since 1994. Streets are chosen for improvement based on their condition, age, utility issues, and other relevant factors. I would like to inform you that our engineering staff has begun working on a feasibility study for the 2025 Street Improvement Project.

We have started surveying the streets to prepare a cost estimate for the proposed project. To ensure that we address the needs and concerns of our community, we would like to invite you to a neighborhood meeting. This meeting will provide an opportunity to discuss the project and hear any concerns you may have regarding sanitary sewer, storm sewer, water main, trees, street width, or any other issues. Please see below for meeting details.

Mill & Overlay: **December 4, 2024**
Reconstruction: **December 5, 2024**
Time: **6:00 pm**
Location: **City Hall/Council Chamber**

We encourage you to attend and ask as many questions as you may have to better understand what to expect from the upcoming project. Your input is invaluable to us as we move forward.

Thank you for your attention to this important matter. We look forward to seeing you at the meeting!

Sincerely,

Reabar Abdullah
Assistant City Engineer
City of Stillwater
